Organize cycles of work into sprints

Sprints are short, time-boxed periods when a team collaborates to complete a set amount of customer value. Use sprints to drive incremental delivery, allow your team to ship high-quality work and deliver value faster.

## 1 Project template

 Scrum

Sprint toward your project goals with a board, backlog, and roadmap.

Change template

## 2 Choose a project type

 You'll need to create a new project if you decide to switch project types later.

[Team-managed](#)

**Set up and maintained by your team.**

For teams who want to control their own working processes and practices in a self-contained space. Mix and match agile features to support your team as you grow in size and complexity.

Select a team-managed project

The last project you created was a team-managed project.

[Company-managed](#)

**Set up and maintained by your Jira admins**

For teams who want to work with other teams across many projects in a standard way. Encourage and promote organizational best practices and processes through a shared knowledge base and reporting.

Select a company-managed project

The screenshot shows a software application interface for managing projects. On the left, a sidebar lists various project management features: ELearning1 (selected), Software project, Roadmap, Backlog, Board, Reports, Issues, Code, Deployments, Releases, Project pages, and Zephyr Scale. The main area displays a 'Backlog' view for the selected project. A central dialog box titled 'Start sprint' is open, prompting the user to define the sprint details. The dialog includes fields for 'Sprint name \*' (set to 'LRNNG1 Sprint 1'), 'Duration \*' (set to 'custom'), 'Start date \*' (set to '27/10/2021 22:25'), and 'End date \*' (set to '10/11/2021 22:25'). A 'Sprint goal' field is present but empty. At the bottom right of the dialog is a large blue button labeled 'Start sprint'. To the right of the dialog, a vertical sidebar shows progress bars for 'Test View - By Issues' and 'Test View - By Stories', both at 0%. The overall theme is a light blue and white color scheme.

The screenshot shows a Jira Software interface for the 'ELearning1' project. At the top, there are several tabs: 'ELearning1 - Agile board - Jira', 'ELearning1 - Agile board - Jira', '[LRNNG1-5] validate registratio', '[LRNNG1-6] validate login', and '[LRNNG1-6] validate login'. Below the tabs, the URL 'radhikar1.atlassian.net/browse/LRNNG1-6' is visible.

The main area displays a bug report titled '2 login check (invalid)'. The report details: 'numbers in username and password invalid data inputs.' and 'login failed'. To the right of the report, there is a 'To Do' section with a 'Pinned fields' note: 'Click on the ✎ next to a field'. On the far right, there are 'Details' sections for 'Assignee', 'Labels', 'Story point estimate', 'Sprint', and 'Reporter'.

Below the bug report, there is a 'Test Executions' section. It shows a table with two columns: 'Version' and 'Status'. The first row has 'version 1' in the 'Version' column and 'PASS Success' in the 'Status' column. The second row has an empty 'Version' column and 'regression' in the 'Status' column. There are also 'Columns' and 'More' dropdown menus at the top of the table.

At the bottom of the page, there is a comment input field with the placeholder 'Add a comment...' and a note: 'Pro tip: press M to comment'. A 'Learn more' link is also present.

This screenshot shows a Jira Software interface for a Zephyr test case. The left sidebar lists various project management options like Roadmap, Backlog, Board, Reports, Issues, Code, Deployments, Releases, Project pages, Zephyr Scale, and Zenhvr Smaur. The main area displays a test case titled 'logout check.' with a step description: 'click on logout.' and a result: 'successful logout'. The right side shows detailed information for the test case, including assignee (Unassigned), labels (None), story point estimate (None), sprint (LRNNG1 Sprint 1), and reporter (Radhika Revankar). It also shows the creation and update times. A 'Configure' button and a 'Quickstart' button are at the bottom right.

This screenshot shows the Jira Software interface for the 'Epic' view of the 'Browser' backlog. The 'Browser' epic contains six issues: LRNNG1-2 (Register), LRNNG1-3 (login), LRNNG1-4 (logout), LRNNG1-5 (validate registration), LRNNG1-6 (validate login), and LRNNG1-7 (validate logout). All six issues are listed as 'DONE'.

## Complete LRNNG1 Sprint 1

This sprint contains 6 completed issues.

That's all of them - well done!

TEST CREATION: 30 DAY SUMMARY

TEST EXECUTION: 30 DAY SUMMARY

Quickstart

The screenshot shows the Jira Software Test Summary page for the ELearning1 project. The main header includes the Jira Software logo, navigation links for 'Your work', 'Projects', 'Filters', 'Dashboards', 'People', 'Apps', and a 'Create' button. A search bar is located at the top right. On the left, there's a sidebar with project details ('ELearning1 Software project'), a 'Back to project' link, and sections for 'Cycle Summary', 'Search Test Executions', 'Manage Execution Filters', 'REPORTING' (with 'Test Summary' selected), 'Test Metrics', and 'Traceability Matrix'. Below these are 'INTEGRATIONS' and 'API Keys' sections. The main content area is titled 'Test Summary' and features three large summary cards: 'Total Tests' (3), 'Total Unexecuted' (0), and 'Total Executed' (3). Below these are three tabs: 'TESTS BY VERSIONS', 'TESTS BY COMPONENTS', and 'TESTS BY LABELS', each with a table showing the count of tests. At the bottom, there are two charts for 'TEST CREATION: 30 DAY SUMMARY' and 'TEST EXECUTION: 30 DAY SUMMARY', both showing data from 3.5 to 4.0. A 'Quickstart' button is located in the bottom right corner.
